LAKSHMIPAT SINGHANIA ACADEMY
12-B ALIPORE ROAD, KOLKATA 700 027

Dear students,

It is alarming to see the number of absentee students, especially in classes 10 - 12. It is a matter of grave concern that these children are not only breaking the discipline pattern but also depriving themselves of the learning time at school. They are also in a way influencing the other students to take a cue from them and thereby make coming-to-school look like an unimportant and a meaningless exercise.

This happens more often and repeatedly before an exam or when they have scheduled tutorial classes during week days. The students are seen extending the weekend further by taking extra leave. Sick students want to leave the school soon after the paper gets over, so they are advised to stay at home till they recover fully.

None of the above mentioned will be tolerated.

We are taking a serious note of the issue and are hereby warning the students to be regular and stay focused where attendance is concerned.

The school will take serious measures if the instructions are not adhered to.
